

Financial Accountant

We're looking for a full-time financial accountant who wants to gain hands-on experience across the accounting and financial disciplines. Please contact us if you have 3-5 years of progressive accounting experience and enjoy the challenge of finding solutions to accounting, finance, and spreadsheet problems in a fast-paced environment.

Working with the Director of Finance and Administration, you'll be responsible for all general ledger functions from recording transactions to reconciliations and report preparation. You'll help upgrade our systems and procedures in support of our strategic growth plan. Quickbooks experience is needed and not-for-profit accounting experience is helpful.

We're a small yet surprisingly interesting organization offering meaningful work with opportunities for skill building, professional growth, and personal satisfaction. We are supportive of employees and their outside interests, and we foster a culture of flexibility because we believe that happy employees are productive employees.

Please send cover letter and resume to office@FriendsofArava.org
